

**Activity Title:** Vocabulary Charade Bingo! (Chabingo)

**Target Skill:** Vocabulary building

**Activity Objective(s):** Students will take turns playing charades while the onlooking students play a bingo game with the answers. The first team to get a “bingo” (5 in a row) wins a prize!

**Class Level:** Intermediate

**Materials:** TPR, Bingo sheets, stampers/bingo chips

**Time:** 15-20 minutes or until someone gets a bingo!

**Procedure:** We start by dividing into teams. Students will utilize whatever this week’s vocabulary words are. They will fill in the words in any order they want on a blank set of empty bingo squares. (So everyone will have a different-looking bingo sheet)

Then, students will take turns coming up to the front of the class to act out one of the words for their own team to guess. If they guess the word in 30 seconds, then the whole team gets to mark that word on their bingo squares. However, if they do not guess, then the other team gets a 15-second chance to make one guess together and mark the word if they get it right.

The teams switch back and forth with their charades until someone gets a bingo! If there is extra time, we can play again.
